MAYOR'S NOTES

Do you know there is an ordinance against putting your grass clippings in the gutters? These grass clippings are then washed into the storm sewers, potentially causing the storm sewer to get plugged up. When you are mowing, please mow the first round so that it blows into your lawn and away from the street. You will help to reduce the amount of repairs that need to be done, which you will be helping to pay for when it could be avoided in the first place.

By the time this is printed in the papers, Crossroads Day 2018 will be on us. Big things are planned for Saturday, July 21st again this year. I would like to thank all those who are helping with this year's celebration. It takes a lot of people to make this happen each year. Your efforts and time are appreciated by me and others in the community. The F.O.C.U.S. board always welcomes new people and new help. Think about stepping forward and helping.

The Summer Reading program at the library is going well. Be sure to get your children involved on Wednesday mornings that it is held. Check with Delta or see the schedule in the Post Office and the door at the Municipal Building.

How to Properly Dispose of Old Paint

Oil-based paint and varnish, etc. are considered hazardous material. These can be taken to the Sac County Landfill during regular business hours for proper disposal. DO NOT put it in your regular trash for pick up by your garbage hauler.

Latex paint is not considered hazardous, however; to dispose of it properly, add kitty litter, sawdust, or shredded paper to the paint, wait for it to solidify and then toss it in your trash. If there is a small amount left you can spread it on old newspapers and let it dry and then throw it in the trash.

Let's all do everything we can to protect our land, water and environment.
